## Online Safety – 'Wake Up Wednesday'

### 'Top Tips for Christmas Devices'

With Christmas approaching, it may be that your child is getting their first phone (or perhaps a new one). There are some important things to think about and some great advice here with how to set it up as safely as possible for your child to use. <https://eephonesmart.co.uk/online-safety-tips/buy-childs-first-smartphone/>

Many other devices that your child may be getting for Christmas also have access to the internet. A new device is a great time to set new ground rules for their use.

The organisation 'Internet Matters' has produced a really useful checklist to work through when setting up new devices for your child [Internet Matters e-safety checklist for new devices](#)

#### [Set up devices e-safety checklist - Internet Matters](#)

Use the device settings so you can only download age appropriate apps and games. Disable location services so

your child doesn't unintentionally share their location with others.; Set up devices with password control, or disable in-app purchasing so big bills don't run up accidentally. [www.internetmatters.org](http://www.internetmatters.org).

### SEND Information

We would like to introduce you to the Lumi Nova app, a fun digital therapy for childhood anxiety.

Lumi Nova is a therapeutic game that helps children aged 7-12 years self-manage worries and build resilience.

#### Who is Lumi Nova for?

Lumi Nova is for 7-12 year olds facing difficulties with anxiety, including:

- **Phobias** eg Being afraid of spiders or insects, heights, being near dogs or the dark.
- **Social anxiety** eg Feeling worried about making new friends, going to social events.
- **Separation anxiety** eg Unable to sleep alone, worried about being away from parents, going to school.

### THE ZONES OF REGULATION

In school, we use The Zones of Regulation to help all children understand their emotions and develop their ability to self-

regulate. Children learn to identify emotions, categorise these emotions into 'zones', recognise events that might make them move to a different zone and use tools they have learnt to help them regulate how they are feeling.

#### What are the different Zones?

**Blue Zone:** low level of arousal, not ready to learn, feels sad, sick, tired, bored.

**Green Zone:** calm state of alertness, optimal level to learn, feels happy, calm, focused.

**Yellow Zone:** heightened state of alertness, feels frustrated, worried, silly/wiggly, excited, annoyed.

**Red Zone:** heightened state of alertness and intense emotions, not an optimal level for learning, out of control, feels mad/angry, terrified, yelling/hitting, elated.

**If you would like to know more information, we have leaflets available at the School Office.**
