Setting up Google Classroom on different devices

Using a laptop? In a Google Chrome browser, go to classroom.google.com and log in using the google classroom account for your child. It's really important to make sure that the browser is logged in using the correct account (more info on this in document 4 – troubleshooting).

Using a phone or tablet? You can log in with a browser or above, or download the classroom app. The app is available for Android or ios (Apple) devices, but not for Windows phones or tablets. If you have a windows phone or tablet, you will need to use the browser option.

Using a games console?

See instructions below:

PS4

1. Turn on PS4
2. Use your controller to scroll to the far right of the bar with games to *Library*
3. Select *Library* application
4. Within the library use the search bar to type in *Internet*
5. Select the *Internet Browser* app
6. Start Internet Browser and press the triangle button on the controller to search
7. Once on the internet, type in the search box *Google Classroom* and select the first link that comes up:
Classroom: manage teaching and learning Google for Education - link below'
https://edu.google.com/products/classroom
8. Select *Go to Classroom*. Then log in using student email and password.

XBOX

1. Go to Home Menu
2. Select *My Games and Apps*
3. Scroll down to Apps
4. Go to *Microsoft Edge* application
5. Type in a search for Google Classroom
6. Select *Go to Classroom*
7. You will need to log in using your student email address and password.
